

MUHAMMAD FAISAL

Lahore, Pakistan

+92-311-4194766 | faisalhanif713@gmail.com

PROFESSIONAL SUMMARY

Motivated BSCS graduate with strong proficiency in C++ and MERN Stack development. Proven ability to design, develop, and deploy full-stack web applications through academic projects and self-driven learning. Seeking a dynamic role in a software house to deliver scalable solutions, grow technically, and contribute to innovative software products.

EDUCATION

BS Computer Science (BSCS)

University of Education, Lahore | Expected Jul 2026

Final examinations completed; degree pending issuance

Intermediate (ICS – Physics)

Punjab Group of Colleges, Lahore | 2022

TECHNICAL SKILLS

Languages: C++, JavaScript, HTML5, CSS3, Python

Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Tools: VS Code, Git/GitHub, Postman, MongoDB Compass, REST APIs

FINAL YEAR PROJECT — DINEFLOW

Full-Stack Restaurant Management System

MERN Stack • Machine Learning • React.js • Node.js • Python

- Developed a comprehensive web application handling table management, order processing, reservations, employee records, and attendance tracking
- Engineered an ML-powered food recommendation engine using a hybrid model for personalized dining suggestions
- Implemented ETA prediction for customer arrivals using Random Forest algorithm, improving kitchen workflow and seating efficiency
- Built responsive UI with React.js and scalable backend APIs with Node.js/Express.js; prepared for cloud deployment

CERTIFICATIONS

MERN Stack Development
